

Welcome to our D30 C&C Meeting

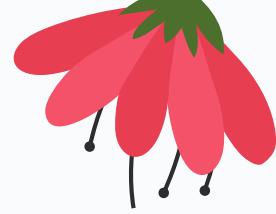

April 8, 2024

Superintendent's Report Community Education Council Meeting

In Support of the Chancellor's Pillar #1 Reimagining the student experience

We would like to highlight the following schools

PS 2 – CASA- Queens
County Farm
After-school program

I.S. 227 – Science
Night

Schools participated in
Civics for All Week!
"Democracy Needs You!"

Reminders

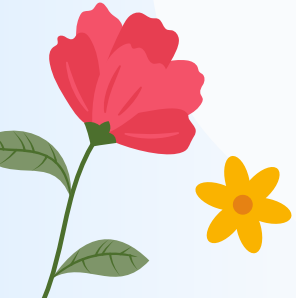

Home Language Entry for Students Progressing from Pre-K to Kindergarten

- As Per [Commissioner's Regulations \(CR\) Part 154](#), all schools must administer the [Home Language Identification Survey](#) (HLIS) to all newly enrolled students to determine the student's home language (HL) code. The complete HLIS must be administered in person by a licensed pedagogue and must follow procedures as outlined in the [ML/ELL Policy and Reference Guide](#).

Updates on New York State (NYS) Grades 3–8 ELA, Math and Science Exams

- The New York State (NYS) grades 3–8 English Language Arts (ELA), math, and science exams will be administered according to this [schedule](#).

Reminders

Opportunity for Select Schools to Apply to Immigrant Ambassador Program

- The DOE is relaunching the [Immigrant Ambassador Program](#) (IAP), a near-peer mentorship and community awareness program designed to prioritize postsecondary planning for immigrant high school students, for the 2023–24 school year. Through this program, select NYC college students will be trained to provide one-on-one and small group workshops and support to students who reflect historically excluded immigrant communities. Programming will occur from the end of August 2023 through June 2024.
- If schools are interested in hosting an IAP at their schools, they should identify a high school counselor, administrator, or teacher to complete the [IAP School Application](#) by **April 12**.

Reminders

Opportunity to Host Vision Zero Traffic Safety Lessons

- As part of the [Vision Zero Initiative](#), the DOE continues to work with the New York City Department of Transportation NYC (DOT) in providing interactive, technology-based classroom lessons on traffic safety to students in grades 4–12.
- The NYC DOT places special emphasis on reaching students in grades 4–8, who are at greater risk for being involved in, or victims of traffic accidents, and has developed compelling, differentiated lessons for these grade levels. Schools that serves grades 4–8 may be contacted by the DOT in the coming weeks to schedule classroom lessons.

Extended Deadline to Administer the 2024 NYC School Survey

- In an effort to increase family, student, and teacher responses for the 2024 NYC School Survey, the deadline to administer the survey has been extended to **April 19** (from April 5).

*Thank
You!!*
